# Message from the Executive Director

From the Desk of Executive Director

Dear Friends, Partners, and Supporters of Texas Health Institute,

We at Texas Health Institute are pleased to share our '*Impact Report*' for fiscal year 2018, highlighting our work and partnerships that advance the health of all!

2018 marked an important year in our organization's timeline and was a year of exciting changes that brought a new dimension, zeal, and purpose in our role as, *your public health institute in Texas*. This report is an opportunity to reflect, recognize, and reiterate our commitment to factors that made it such an exciting year!

First and foremost, I want to thank and express my sincerest appreciation to our 30+partners, 30+funders, and all donors. Without your partnership and support, none of these have been possible. We identified and are clear that the most effective way to measure our success is through the value and impact we create for our partners and communities. Our renewed focus on influencing systems change through collaboration and shared impact was and will continue to be at the core of all our efforts. Hence, our decision to develop an annual impact report. Throughout the report, we have shared highlights and impact in terms of geography or activities that in turn helped our partners and communities in creating systems that advance the health of all.

We also recognize that there is always an opportunity to be do more and be better. To that end, we continue to reflect and identify ways to be more effective but I also encourage you to reach out to me or any of our board and team members if you have any ideas, feedback, or thoughts for us to improve. You will see this through some exciting changes unveiled in 2019 and that will continue as we move forward.

Lastly, on behalf of the THI family, I would like to reiterate our commitment to our role, purpose, and look forward to working alongside each one of you to create and conquer opportunities that advance the health of all!

With gratitude and in health of all,

Ankit Sanghavi BDS, MPH  
Executive Director

Director, Oral Health Program

# 2018 Highlights

**3 National-level, 4 State-level reports**

**24 online training courses  
with a reach of 4,578 trainees**

**Health Equity and Opportunity Index** - In July 2018, the [Health Opportunity and Equity \(HOPE\) Initiative](#), funded by the [Robert Wood Johnson Foundation](#), led by [National Collaborative for Health Equity](#) and Texas Health Institute in partnership with [Virginia Commonwealth University's Center on Society and Health](#), was launched to start a new conversation about health because we believe that every person in the U.S., no matter their background or ZIP code, should have a fair and just opportunity for the best possible health and well-being.

**Report on Oral Health in Texas** - In February 2018, with support from [St. David's Foundation](#), [DentaQuest Foundation](#), [Delta Dental Community Care Foundation](#), and [Cook Children's Hospital](#) we released a [first of its kind report on oral health in Texas](#). This comprehensive report provides a data based portrait of oral health in our state at the county, regional, and state level for each of the 254 counties in our state.

**TransForward** - In August 2018, Texas Health Institute and [Equality Texas](#) Foundation were selected as one of the recipients of Eugene Washington PCORI Engagement Awards of [Patient-Centered Outcomes Research Institute](#) for [TransFORWARD: A Statewide Transgender-Powered Research Collaborative in Texas](#). The project engages transgender Texans in a ground-breaking research capacity-building project to improve the lives and health of transgender Texans.

# 2018 Highlights

**1 national, 2 multi-state, 4 state,  
8 community level convenings**

**20+ presentations at national  
and state venues/forums**

**Texas Primary Care Consortium** - With a mission to advance accessible, continuous, and coordinated person centered care for all Texans, [Texas Primary Care Consortium](#) (TPCC) is a statewide collaborative initiative led by [Texas Medical Home Initiative](#) in partnership with Texas Health Institute. In Fall of 2018, building on the success and momentum of our annual statewide convening, "Texas Primary Care and Health Home Summit," TPCC is our commitment to expand the focus of our collaboration to improve access to systematically move the needle on primary care and health in Texas!

**Genetics Summit** - Building upon our past 12 years of efforts facilitating the eight state [Mountain States Regional Genetics Network](#) and to further increase access to genetics services, appropriate expertise, and information, in September 2018, we convened the first [genetics summit](#) in San Antonio, Texas.

**America's Health Rankings Health of Those Who Have Served** - In October 2018, [America's Health Rankings](#) released the [2018 Health of Those Who Have Served Report](#), a third in a series of annual reports developed by and in collaboration with Texas Health Institute and [Arundel Metrics](#), with support from [United Health Foundation](#), serving as the national's leading, ongoing data resource on the health and well-being of our nation's military and veteran populations.
